

MIHAIL CHARILAOU

COMPUTER SCIENCE STUDENT

Nicosia-Limassol, Cyprus | (+357) 96 147475 | michaelok929@gmail.com |
| LinkedIn URL – www.linkedin.com/in/mihail-charilaou-b39586351 |

SUMMARY

Engineering student with practical experience in AI systems, robotics, and embedded technologies. Skilled in Python, C++, data analysis, and real-time applications. Demonstrates strong teamwork, leadership, and communication abilities through both technical and customer-oriented roles. Brings a proactive mindset and passion for innovation in interdisciplinary environments.

EDUCATION

UNIVERSITY OF NICOSIA (UNIC)

Bachelor of Science, Computer Science

NICOSIA, CYPRUS
SEP.2023–JIN. 2028

- Relevant courses: Artificial Intelligence, Data Structures, Software Engineering, and etc.
- KEY PROJECTS:
 - AUTONOMOUS DRONE SWARM “LIKE BEES” (ARDUINO-BASED, ~50 DRONES)
 - OFFLINE AI ASSISTANT WITH FACIAL AND VOICE RECOGNITION
- STUDENT ID: U234N0186
- President of the Robotics and Innovation Technology Club
- CURRENT GPA: 3.0–3.6 / 4.0
- WORKING ON A THESIS: “DESIGN OF AN OFFLINE ARTIFICIAL INTELLIGENCE ARCHITECTURE INTEGRATING MEMORY, EMOTIONAL SIMULATION, AND SELF-AWARENESS”
- SECONDARY PROJECT: “DEVELOPMENT OF A PARALLEL HYBRID ION PROPULSION SYSTEM”

PROFESSIONAL EXPERIENCE

VIENNA COFFEE COMPANY

Barista

NICOSIA, CYPRUS
MAR. 2024 – MAY. 2025

- Delivered fast and high-quality service in a busy environment, consistently meeting customer satisfaction goals
- Trained and mentored new staff on workflow, customer service standards, and POS system operations
- Collaborated with team members to optimize daily processes and ensure smooth shift transitions

MIKEL COFFEE COMPANY

Barista

NICOSIA, CYPRUS
MAY. 2023 – NOV. 2023

- Provided excellent service in a high-paced setting while maintaining accuracy and professionalism
- Guided and trained new employees, improving onboarding efficiency and reducing initial errors
- Supported operational consistency through adherence to company procedures and quality standards

SKILLS

- Interpersonal
 - | Self-learning | Problem-solving | Multitasking | Adaptability | Critical thinking |
- Expertise
 - | Software Development | Embedded Systems | Computer Vision | Face & Voice Recognition | Full-Stack Engineering | Data HandlingTools |
- Tools
 - | Visual Studio Code | MSYS2 | MinGW | Git | Python | C++ | Rust | Arduino | OpenCV | dlib | SFML | SDL2 |
- Languages
 - | Russian (Native) | English (B2 – Upper-Intermediate) | Greek (Native)

EXTRACURRICULAR OR CERTIFICATIONS OR HOBBIES OR INTERESTS

Projects:

- Developed a facial and voice recognition system with automatic ID assignment (Python, dlib, OpenCV)
- Created an offline voice assistant inspired by "Jarvis" with self-learning capabilities
- Led the "Like Bees" autonomous drone swarm project (~50 drones on Arduino platform)

Interests:

- Artificial Intelligence
- Embedded System
- Neural Networks
- Cybernetics & Machine Learning

Hobbies:

- Engineering
- Astronomy
- Astrophysics
- Robotics
- Diving
- Skydiving
- Sci-fi: *The Expanse*, *Star Wars*
